**Tech Mahindra - Business Analyst (HR Questions)** 

# TOP 25 HR INTERVIEW QUESTIONS FOR TECH MAHINDRA - BUSINESS ANALYST

(With Sample Answers and Tips)

01

What attracted you to Tech Mahindra and the Business Analyst role?

#### Sample Answer

I admire Tech Mahindra's focus on innovation and its commitment to digital transformation across industries. The opportunity to drive strategic decisions through data analysis aligns perfectly with my career goals

# Interview Tip

Mention specific Tech Mahindra projects or values that resonate with you.

02

Can you describe a successful project where you served as a Business Analyst?

#### Sample Answer

I worked on a project to streamline supply chain operations, which involved gathering requirements, conducting stakeholder interviews, and implementing a new tracking system. This reduced delivery times by 20%

#### Interview Tip

Use the STAR method (Situation, Task, Action, Result) to frame your answer clearly

How do you approach gathering requirements from stakeholders?

#### Sample Answer

I start by conducting interviews and surveys to understand stakeholder needs.
I also facilitate workshops to encourage collaboration and ensure all voices are heard

# Interview Tip

Emphasize your communication skills and ability to build relationships.

04

How do you prioritize tasks when managing multiple projects?

#### Sample Answer

I prioritize based on project deadlines, stakeholder impact, and resource availability. I use project management tools like JIRA to keep everything organized

# Interview Tip

Mention specific tools and how they help you stay organized

Can you explain how you use data analysis to inform business decisions?

#### Sample Answer

I leverage data visualization tools like Tableau to present insights clearly, enabling stakeholders to make informed decisions. For example, I analyzed customer feedback trends to suggest product improvements

# Interview Tip

Provide examples of how your analysis directly influenced decision-making.

# 06

Describe a time when you had to deal with conflicting stakeholder interests.

#### Sample Answer

In a recent project, stakeholders had differing priorities. I facilitated a meeting to discuss their concerns openly, helping to find a compromise that aligned with overall business objectives

#### Interview Tip

Highlight your mediation skills and ability to find common ground.

What tools or methodologies do you use for business analysis?

#### Sample Answer

I'm proficient in Agile methodologies and tools like Microsoft Visio for process mapping and Trello for task management. I also use SQL for data extraction and analysis

# Interview Tip

Mention certifications or training in relevant methodologies or tools.

08

How do you ensure your findings are actionable and relevant?

## Sample Answer

I focus on aligning my analysis with business objectives and key performance indicators. I also seek feedback from stakeholders to ensure my recommendations are practical and implementable

### Interview Tip

Discuss the importance of stakeholder engagement in your process.

# What role does communication play in your work as a Business Analyst?

### Sample Answer

Effective communication is crucial for bridging the gap between technical teams and business stakeholders. I strive to present complex information in an accessible way to ensure clarity

# Interview Tip

Provide examples of how your communication skills have led to successful outcomes

10

# How do you handle changes in project scope or requirements?

#### Sample Answer

I assess the impact of changes on project timelines and resources, communicating these to stakeholders. I adapt the project plan accordingly and ensure alignment with business goals

# Interview Tip

Emphasize your flexibility and proactive approach to change management.

Can you discuss a time when your analysis led to significant cost savings?

#### Sample Answer

I analyzed operational inefficiencies in a client's process, identifying areas to automate. This led to a 15% reduction in operational costs without sacrificing service quality

Interview Tip

Use quantifiable results to demonstrate the impact of your work.

12

# What do you believe are the key skills for a successful Business Analyst?

#### Sample Answer

Key skills include strong analytical thinking, effective communication, and the ability to understand both technical and business aspects. Adaptability and stakeholder management are also crucia

Interview Tip

Tailor your answer to reflect the skills that Tech Mahindra values.

How do you ensure continuous improvement in your work processes?

## Sample Answer

I regularly seek feedback from colleagues and stakeholders, reflecting on past projects to identify lessons learned. I also stay updated on industry best practices to enhance my approach

# Interview Tip

Highlight your commitment to professional growth and quality improvement.

14

How do you approach stakeholder management in your projects?

#### Sample Answer

I prioritize building strong relationships with stakeholders through regular updates and open communication. This helps to manage expectations and fosters collaboration

# Interview Tip

Emphasize your proactive engagement and relationship-building skills.

Describe a time when you had to present complex information to a non-technical audience.

#### Sample Answer

I once presented technical findings to a marketing team. I simplified the data using visual aids and relatable examples, ensuring they understood the implications for their strategy

# Interview Tip

Show your ability to tailor communication to the audience's needs.

16

What is your experience with Agile methodologies?

#### Sample Answer

I have worked on Agile teams for several projects, participating in sprints and daily stand-ups. This approach has helped me respond quickly to changes and deliver value incrementally.

# Interview Tip

Mention specific Agile frameworks you've used, such as Scrum or Kanban.

How do you handle tight deadlines and highpressure situations?

# Sample Answer

I maintain focus by breaking down tasks into manageable steps and prioritizing effectively. I also communicate with my team to ensure we are aligned and can support each other

Interview Tip

Highlight your organizational skills and ability to remain calm under pressure.

18

What metrics do you consider most important when evaluating project success?

#### Sample Answer

I focus on metrics such as ROI, customer satisfaction, and project completion time. These indicators help assess whether we've met the project goals and delivered value

Interview Tip

Tailor your metrics to align with Tech Mahindra's strategic objectives.

How do you ensure alignment between IT and business goals?

#### Sample Answer

I facilitate regular meetings between IT and business units to discuss objectives and progress. This alignment ensures that IT initiatives support broader business strategies

# Interview Tip

Emphasize the importance of cross-functional collaboration.

20

How do you approach risk management in projects?

#### Sample Answer

Beyond accuracy, metrics like precision, recall, F1-score, and AUC-ROC are crucial for classification models. I also monitor deployment metrics like latency, throughput, and model drift over time to ensure that the model performs well at scale

#### Interview Tip

Mention specific metrics and explain how they reflect the performance and robustness of a machine learning model at scale.
